

Run for your life!

Find out which dinosaur you'll race:

1. Calculate your leg length: $(\frac{\text{number of whole ruler lengths}}{\text{number of whole ruler lengths}} \times 12 \text{ inches}) + \text{_____ inches} = \text{_____ inches}$

2. Circle the dinosaur that's your leg length or **less**:

VeeLo
(*Velociraptor*)

Leg length: about **20** inches

SanJuan
(*Sanjuansaurus*)

Leg length: about **25** inches

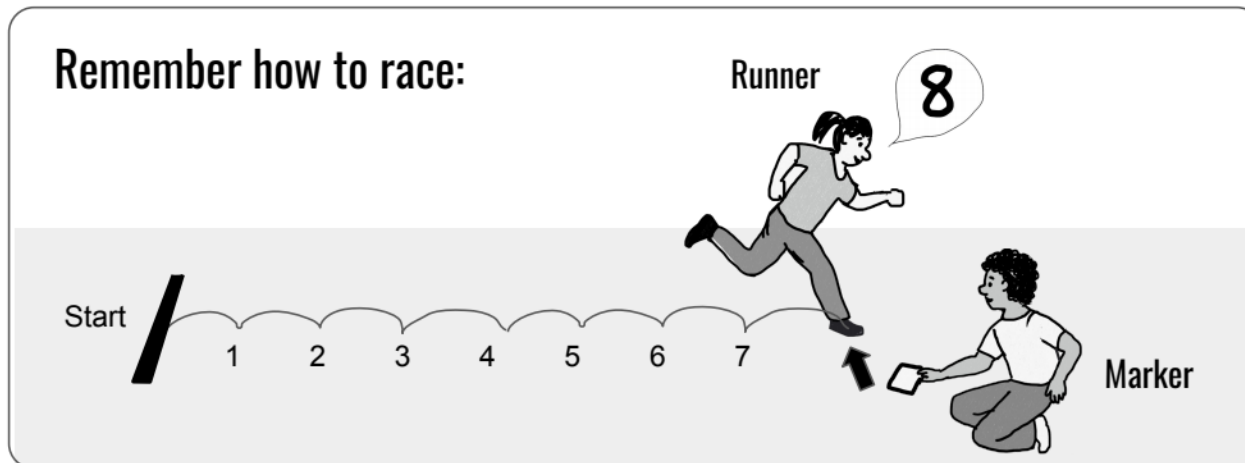

DeeNo
(*Deinonychus*)

Leg length: about **30** inches

CeeLo
(*Coelophysis*)

Leg length: about **35** inches

Remember how to race:
